Bahrain Telecommunications Company BSC

CHAIRMAN'S REPORT

For the year ended 31 December 2021

Chairman's Statement

On behalf of the Board of Directors, it gives me great pleasure to present the 40th Annual Report of the Bahrain Telecommunications Company BSC and its subsidiaries and affiliates (Batelco), for the year ended 31st December 2021.

Batelco achieved strong financial results for 2021 with a 16% year-over-year increase in net profit attributable to equity holders of BD65.9M (US\$174.8M).

The 2021 results reflect the company's strength and resilience whilst continuing to achieve its strategic objectives and its commitment to delivering favorable returns to shareholders. Financial results for 2021 witnessed YoY increases in revenues, EBITDA, operating profits and net profit attributable to equity holders in all four quarters of the year.

Gross revenues for the year of BD399.6M (US\$1,059.9M) are 3% above 2020, while EBITDA of BD163.0M (US\$432.4M) increased by 5% YoY with a healthy margin of 41%. Operating profit in 2021 stood at BD89.2M (US\$236.6M), 10% above the prior year.

Batelco's balance sheet remains strong with total assets of BD1,030.6M (US\$2,733.7M) and net assets of BD530.7M (US\$1,407.7M) as of 31 December 2021. The Company ended the year with substantial cash and bank balances of BD220.7M (US\$585.4M) and a robust Net Debt to EBITDA ratio of 0.5x.

Proposed Appropriations

Based on the financial results, the Board of Directors has recommended for the approval of shareholders, the following appropriations for the year 2021.

BD millions	2021	2020
Final cash dividends proposed	27.44	27.44
Interim cash dividends paid	22.35	22.36
Donations	1.65	4.39
Transfer to statutory reserve	-	-

Batelco is committed to consistently delivering attractive returns to its shareholders. Accordingly, the Board of Directors has recommended a full year cash dividend of BD49.8M (US\$132.1M), at a value of 30 fils per share to be agreed at the Annual General Meeting, of which 13.5 fils per share was already paid during the third quarter of 2021 with the remaining 16.5 fils to be paid following the AGM in March 2022.

Bahrain Telecommunications Company BSC

Board and Management Remuneration

1. Board remuneration

The total Board remuneration received during the year 2021 amounted to **BD573,749**, this includes the annual board remuneration of the company (subject to AGM approval), its subsidiaries, sitting fees and other expenses paid to the Board of Directors. The table below includes the details of the Board remuneration for the year 2021:

Name	Fixed remunerations					Variable remunerations					End-of-service award (BD)	Aggregate amount (Does not include expense allowance) (BD)	Expenses Allowance (BD))
	Remunerations of the chairman and BOD (BD)	Total allowance for attending Board and committee meetings (BD)	Salaries (BD)	Others (BD)	Total (BD)	Remunerations of the chairman and BOD (BD)	Bonus (BD)	Incentive plans (BD)	Others (BD)	Total (BD)			
First: Independent Directors:													
*Shaikh Abdulla Bin Khalifa Al Khalifa - Chairman	100,910	3,000	0	0	103,910	0	0	0	0	0	0	103,910	1,020
*Raed Abdulla Fakhri – Deputy Chairman	45,455	9,000	0	0	54,455	0	0	0	0	0	0	54,455	0

Jean Christophe Durand – Director	55,455	3,000	0	0	58,455	0	0	0	0	0	0	58,455	0
*Khalid Husain Taqi – Director	50,455	10,250	0	0	60,705	0	0	0	0	0	0	60,705	0
*Abdulla Abdulrazak Bukhowa – Director	45,455	2,000	0	0	47,455	0	0	0	0	0	0	47,455	0
Ahmed Abdulwahed Abdulrahman – Director	50,455	8,250	0	0	58,705	0	0	0	0	0	0	58,705	0
*Major General Ali Saqer Al Noaimi – Director	50,455	4,000	0	0	54,455	0	0	0	0	0	0	54,455	0
Second: Non-Executive Directors:													
*Abdulla Abdulhameed Alhammadi – Director	36,175	4,500	0	0	40,675	0	0	0	0	0	0	40,675	868
*Fatema Ghazi Alarayedh – Director	45,455	2,000	0	0	47,455	0	0	0	0	0	0	47,455	0
Total	524,361	47,500	0	0	571,861	0	0	0	0	0	0	571,861	1,888
Notes:													
1) The Board Remuneration included in the above table is inclusive of any Remuneration paid to the Directors serving on any of the company's subsidiary Boards. It is also inclusive of the Annual Board Remuneration amount which is subject to the approval of the AGM.													
2) *Annual Board Remuneration shall be paid to the entity (shareholder) in which the board members represent.													

Bahrain Telecommunications Company BSC

2. Executive Management Remuneration

The total amount of remuneration paid to the 6 highest paid executives in the Company is as follows:

Executive management	Total paid salaries and allowances (BD)	Total paid remuneration (Bonus) (BD)	Any other cash/ in kind remuneration for 2021 (BD)	Aggregate Amount (BD)
Top 6 remunerations for executives, including CEO and CFO	922,251	396,571	0	1,318,822

The Board is very pleased to finish 2021 with positive financial results, achieving 16% increase in Net Profits, 3% increase in Revenues, and Operating Profit and EBITDA up by 10% and 5% respectively. The results for 2021 reflect the successful execution of Batelco's strategy which include strengthening the core business and implementing new and upgraded solutions as part of the Company's ambitious digitisation plans.

The past year was distinguished by key achievements across our core businesses and advances in our digital growth, including the launch of Batelco's first digital brand, Beyon Money. We are extremely happy to enter this new chapter and look forward to seeing the developments in the coming year.

Reflecting the importance of people, Batelco continued with initiatives aimed at nurturing its team members, developing a high-performance culture and an admirable workplace environment. I am delighted to note that these efforts resulted in Batelco being recognised as a great workplace, by Great Place to Work® Institute Middle East, for the second year. Furthermore, I personally presented rewards to Batelco's team members who were selected throughout 2021 as part of the 2nd annual Chairman's Award programme.

The combined knowledge and experience contributed by my colleagues on the Board is invaluable and I offer each one my personal thanks for the roles they played in helping to ensure we continued to meet the expectations of Batelco's shareholders. I also offer my appreciation to Batelco's management and team members for their efforts in implementing Batelco's strategy, which helped to deliver this strong set of financial results.

Batelco's Board places great importance on meeting shareholders' expectations and we are pleased to announce a good increase in EPS for 2021. On behalf of my colleagues, I want to thank our shareholders for the confidence they place in our strategic direction, and we will remain committed to delivering excellent returns on their investment in the year ahead.

Batelco was gratified to see the government announcement of a new national economic growth and fiscal balance plan aimed at supporting the post-Covid recovery. Accordingly, on behalf of Batelco's Board I would like to extend my sincere gratitude to His Majesty King Hamad bin Isa Al Khalifa and His Royal Highness Prince Salman bin Hamad Al Khalifa, the Crown Prince and Prime Minister, for the ongoing support which is vital for all sectors including telecoms.

The many successes of 2021 have provided us with a strong platform as we take on ambitious plans for 2022. Digital growth will continue to factor strongly in the Company's plans to play a bigger role in areas beyond our traditional core business. I have confidence in the commitment of Batelco's management and team members and look forward to a successful year ahead.

Auditors

The Board of Directors will recommend the re-appointment of KPMG Fakhro as Batelco's auditors for the financial year ending 31st December 2022.

Abdulla bin Khalifa Al Khalifa
Chairman of the Board
Bahrain Telecommunications Company BSC
February 24th 2022

Raed Abdulla Fakhri
Deputy Chairman of the Board
Bahrain Telecommunications Company BSC
February 24th 2022

Independent auditors' report

To the Shareholders of

Bahrain Telecommunications Company BSC

Manama, Kingdom of Bahrain

Opinion

We have audited the consolidated financial statements of Bahrain Telecommunication Company BSC (the "Company") and its subsidiaries (together the "Group"), which comprise the consolidated statement of financial position as at 31 December 2021, the consolidated statements of profit or loss, comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2021, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), together with the ethical requirements that are relevant to our audit of the consolidated financial statements in the Kingdom of Bahrain, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter 1: Revenue recognition

(refer to the use of estimate and management judgement in note 5, the accounting policies in note 8 (c) and disclosure in note 26 of the consolidated financial statements)

The key audit matter	How the matter was addressed in our audit
We focused on this area because: <ul style="list-style-type: none">— There is an inherent risk around the accuracy of revenue recorded given the complexity of systems involved in processing revenue transactions and the impact of changing pricing models to revenue recognition (tariff structures, incentive arrangements, discounts, etc.).— The application of revenue recognition	Our audit approach included controls testing and substantive procedures for key revenue streams covering, in particular: <ul style="list-style-type: none">— testing the IT environment in which rating, billing and other relevant support systems reside, including the change control procedures in place around systems that bill material revenue streams;— testing the controls and governance processes over reconciliation from business support systems to

<p>accounting standards is complex and involves a number of key judgements and estimates.</p>	<p>rating and billing systems to the general ledger;</p> <ul style="list-style-type: none"> — performing tests on the accuracy of customer bill generation including credits and discounts applied to customer bills on a sample basis; — performing tests on allocation of revenue for bundled contracts and recognition of revenue on multi-period contracts; — performing tests on accuracy of allocation and recording unbilled revenue representing good and service obligations performed but not billed yet; and — evaluating the adequacy of the Group disclosures related to revenue recognition by reference to the relevant accounting standards.
---	--

Key audit matter 2: Carrying value of goodwill

(refer to the use of estimate and management judgement in note 5 and accounting policy in note 8(n)(ii) and disclosure in note 11 of the consolidated financial statements)

The key audit matter	How the matter was addressed in our audit
<p>As at 31 December 2021, the Group's consolidated financial statements includes recognised goodwill of BD 137.3 million which arose from the acquisition of subsidiaries.</p> <ul style="list-style-type: none"> — Impairment charges on goodwill has been recognized in the prior periods. An assessment is required annually to establish whether this goodwill should continue to be recognized or if any impairment is required. The impairment assessment relies on determining the recoverable amount of the investment in the subsidiary or a cash generating unit using valuation techniques such as discounted cash flows. The estimation of future cash flows and the rate at which they are discounted is inherently uncertain and requires significant judgement and hence has been identified as a key area of audit focus. 	<p>Our audit procedures, amongst others, included:</p> <ul style="list-style-type: none"> — understanding of the Group's budgeting process upon which the forecasts are based; — we involved our own valuation specialists to assist us in: <ul style="list-style-type: none"> • evaluating the appropriateness of the methodology used by the Group to assess impairment of goodwill; and • evaluating key inputs and assumptions in cash flow projections used by the Group in comparison to externally derived data as well as our own assessments of investee specific circumstances and experience in the related industry, in particular its derivation of discount rates, long term growth rates, revenue and EBITDA margins and comparing progress against stated business plans. — evaluating the adequacy of the Group disclosures related to goodwill impairment by reference to the relevant accounting standards.

Key audit matter 3: Capitalisation and useful lives of network assets and telecom equipment, and other intangible assets

(refer to the use of estimate and management judgement in note 5, accounting policy in notes 8(d) and 8(f) and disclosures in note 9 and 12 of the consolidated financial statements)

The key audit matter	How the matter was addressed in our audit
<p>We focused on this area because there are a number of areas where management judgement impacts the carrying value of network assets and telecom equipment, and other intangible assets and their respective depreciation/ amortisation profiles. These include:</p> <ul style="list-style-type: none">— The decision to capitalise or expense costs;— The timeliness of the transfer from assets in the course of construction/ deployment to relevant capitalized asset categories; and— The annual review of the useful life of the assets including the impact of changes in the Group's strategy.	<p>Our audit procedures, amongst others, included:</p> <ul style="list-style-type: none">— we tested controls in place over the fixed asset cycle, the acquisition process and evaluated the appropriateness of capitalisation policies, and assessed the timeliness of the transfer of assets in the course of construction;— we assessed the nature of costs incurred and capitalised in capital projects through testing of amounts recorded and assessing whether the expenditure incurred met capitalisation criteria;— we tested the controls over the annual review of useful life of assets. In addition, we tested whether the Group's decisions on useful life of asset are appropriate by considering our knowledge of the business and practice in the wider telecoms industry; and— evaluating the adequacy of the Group disclosures related to capitalisation and useful life of network assets and telecom equipment and other intangible assets by reference to the relevant accounting standards.

Other Information

The board of directors is responsible for the other information. The other information comprises the annual report but does not include the consolidated financial statements and our auditors' report thereon. Prior to the date of this auditors' report, we obtained the Chairman's Report which forms part of the annual report, and the remaining sections of the annual report are expected to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we have obtained prior to the date of this auditors' report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Board of Directors for the Consolidated Financial Statements

The board of directors is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal control as the board of directors determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the board of directors is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the board of directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the board of directors.
- Conclude on the appropriateness of the board of directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Regulatory Requirements

- 1) As required by the Commercial Companies Law, we report that:
 - a) the Company has maintained proper accounting records and the consolidated financial statements are in agreement therewith;
 - b) the financial information contained in the Chairman's Report is consistent with the consolidated financial statements;
 - c) we are not aware of any violations during the year of the Commercial Companies Law or the terms of the Company's memorandum and articles of association that would have had a material adverse effect on the business of the Company or on its financial position; and
 - d) satisfactory explanations and information have been provided to us by management in response to all our requests.

- 2) As required by the Ministry of Industry, Commerce and Tourism in their letter dated 30 January 2020 in respect of the requirements of Article 8 of Section 2 of Chapter 1 of the Corporate Governance Code, we report that the Company has:
 - a) a corporate governance officer; and
 - b) a Board approved written guidance and procedures for corporate governance

The engagement partner on the audit resulting in this independent auditors' report is Salman Manjlai.

The accompanying notes 1 to 40 form an integral part of these consolidated financial statements.

1. Reporting Entity

Bahrain Telecommunications Company BSC (the "Company", the "Parent") was incorporated as public shareholding company registered under commercial registration number 11700 in the Kingdom of Bahrain in the year 1981 and is engaged in the provision of public telecommunications and associated products and services. The consolidated financial statements for the year ended 31 December 2021 comprise the financial statements of the Company, and its subsidiaries (together referred to as the "Group" and individually as "Group entities") and the Group's interest in associates. The registered office of the Company is P.O. Box 14, Manama, Kingdom of Bahrain. Unless otherwise stated, the subsidiaries as listed below have share capital consisting solely of ordinary shares, which are held directly by the Group and the proportion of ownership interests held equals to the voting rights held by Group. The country of incorporation or registration is also their principal place of business. The significant subsidiaries and equity accounted investees of the Group included in these consolidated financial statements are as follows:

Company	Country of incorporation	Principal activity	Share Holding (%)
Subsidiaries			
Bnet B.S.C (c)	Kingdom of Bahrain	Telecommunication services	100
B-secure W.L.L	Kingdom of Bahrain	Digital services	100
Beyon Solutions W.L.L	Kingdom of Bahrain	Digital services	100
Public Square (public2) Company B.S.C closed	Kingdom of Bahrain	Digital services	100
Batelco Financial Service Company B.S.C closed	Kingdom of Bahrain	Digital financial services	100
Batelco Remittance Services B.S.C closed	Kingdom of Bahrain	Digital financial services	100
Batelco Middle East Holding Co. B.S.C (c)	Kingdom of Bahrain	Holding Company	100
Batelco International Company B.S.C (c)	Kingdom of Bahrain	Holding Company	100
Batelco Middle East Jordan LLC	Kingdom of Jordan	Holding Company	100
Umniah Mobile Company PSC	Kingdom of Jordan	Telecommunication services	96
Batelco Jordan PSC	Kingdom of Jordan	Telecommunication services	96
Urcell Telecom & Technologies Services LLC	Kingdom of Jordan	Telecommunication services	96

BTC Islands Limited	United Kingdom	Holding Company	100
BTC Sure Group Limited	United Kingdom	Holding Company	100

1 Reporting Entity (continued)

Company	Country of incorporation	Principal activity	Share Holding (%)
Equity accounted investees			
Yemen Company for Mobile Telephony Y.S.C ("Sabafon")	Republic of Yemen	Telecommunication services	26.94
The Jordanian Company for Advanced Optical Fiber - (FiberTech)	Kingdom of Jordan	Telecommunication services	49
Advanced Regional Communication Solutions Holding Limited (ARC)	United Arab Emirates	Telecommunication services	50

2. Statement of Compliance

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), and the requirements of the Commercial Company Law and Central Bank of Bahrain's Disclosure Standards for listed entities. They were authorised for issue by the Company's board of directors on 24 February 2022.

Details of the Group's accounting policies, including changes thereto, are included in note 8.

3. Functional and presentation currency

These consolidated financial statements are presented in Bahraini Dinars ("BD"), which is also the Company's functional currency. All amounts have been rounded to the nearest thousand (BD '000), unless otherwise indicated.

4. Basis of measurement

The consolidated financial statements have been prepared under the historical cost convention except for measurement of certain investments that are stated at their fair values.

5. Use of estimates and judgments

The preparation of consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of the Group's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results could differ from these estimates.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to estimates are recognized prospectively.

*5 Use of estimates and judgements (continued)***a) Assumptions and estimation uncertainties**

Information about assumptions and estimation uncertainties at 31 December 2021 that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities in the next financial year is included in the following notes:

- Note 8 (c) Revenue recognition: estimates of expected returns;
- Note 8 (a)(v) Impairment of carrying value of associates;
- Note 8 (n)(ii) Impairment test of intangible assets and goodwill. Key assumptions underlying recoverable amounts;
- Note 8 (n)(i) Measurement of Expected Credit Loss ("ECL") allowance of trade receivables and contract assets: key assumptions underlying ECL;
- Note 8 (m) Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources; and
- Note 8 (r) Recognition of deferred tax assets: availability of future taxable profits against deductible temporary difference and tax losses carried forward can be utilised.

b) Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements is included in the following notes:

- Note 8 (c) Revenue recognition, identification of performance obligation and whether revenue from contracts with customers should be recognised over time or at a point in time;
- Note 8 (a) Equity-accounted investees: whether the Group has significant influence over an investee;
- Note 8 (a) Consolidation: whether the Group has de facto control over an investee;
- Note 8 (d),(f) Useful life of property, equipment, and other intangible assets; and
- Note 8 (g) Lease term Right-of-use assets: whether the Group is reasonably certain to exercise extension options.

c) Measurement of fair values

A number of the Group's accounting policies and disclosure require the measurement of fair values, for both financial and non-financial assets and liabilities.

Significant valuation issues are reported to the Group's audit committee.

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- *Level 1*: quoted market price (unadjusted) in an active market for an identical assets and liabilities.
- *Level 2*: inputs other than quoted prices included in Level 1 that are observable for the assets and liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- *Level 3*: inputs for the asset and liability that are not based on observable market data (unobservable inputs).

If the input used to measure the fair value of an asset or liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

5 Use of estimates and judgements (continued)

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

- Note 32 & 33 Financial instruments
- Note 16 Investments
- Note 15 (c) Share based payment arrangements

6. Changes in significant accounting policies

The details of accounting policies are set out in note 8. There were no significant changes in the accounting policies during the year.

7. New standards, amendments and interpretations issued but not yet effective

A number of new standards, amendments and interpretations to standards are effective for annual periods beginning on or after 1 January 2022 and earlier application is permitted, however; the Group has not early applied the following new standards, amendments and interpretations in preparing these consolidated financial statements.

A. Onerous contracts - Cost of Fulfilling a Contract (Amendments to IAS 37)

The amendments specify which costs the Group includes in determining the cost of fulfilling a contract for the purpose of assessing whether the contract is onerous. The amendments apply for annual reporting periods beginning on or after 1 January 2022 to contracts existing at the date when the amendments are first applied. At the date of initial application, the cumulative effect of applying the amendments is recognised as an opening balance adjustment to retained earnings or other components of equity, as appropriate. The comparatives are not restated.

B. Other standards

The following new and amended standards are not expected to have a significant impact on the Group's consolidated financial statements:

- Annual Improvements to IFRS Standards 2018-2020
- Reference to the Conceptual Framework (Amendments to IFRS 3)
- Property, Plant and Equipment: Proceeds before Intended Use (Amendments to IAS 16)
- Classification of liabilities as current or non-current (Amendments to IAS 1)
- Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2)
- Definition of Accounting Estimates (Amendments to IAS 8)
- Deferred tax related to assets and liabilities arising from a single transaction (Amendments to IAS 12)
- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to IFRS 10 and IAS 28)

8. Significant accounting policies

The significant accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements by the Group entities.

a) Basis of consolidation

i) Business combinations

The Group accounts for business combinations using the acquisition method when the acquired set of activities and assets meets the definition of a business and control is transferred to the Group. In determining whether a particular set of activities and assets is a business, the Group assesses whether the set of assets and activities acquired includes, at a minimum, an input and substantive process and whether the acquired set has the ability to produce outputs.

The Group has an option to apply a 'concentration test' that permits a simplified assessment of whether an acquired set of activities and assets is not a business. The optional concentration test is met if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar assets.

The consideration transferred in acquisition is generally measured at its fair value, as are the identifiable net assets acquired. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognised in profit or loss immediately. Transaction costs are expensed as incurred, except if related to the issue of debt or equity securities

The consideration transferred does not include amounts related to settlement of pre-existing relationships. Such amounts are generally recognised in the consolidated profit or loss.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not remeasured and settlement is accounted for within equity. Otherwise, other contingent consideration is remeasured at fair value at each reporting date and subsequent changes in the fair value of the contingent consideration are recognised in profit or loss.

ii) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group 'controls' an entity if it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

iii) Non-controlling interests (NCI)

NCI are measured initially at their proportionate share of the acquiree's identifiable net assets at the acquisition date.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

iv) Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

v) Interest in equity-accounted investees

The Group interest in equity-accounted investees comprises interest in associates and a joint venture.

8. Significant accounting policies (continued)

An associate is an entity in which the Group has significant influence, but not control or joint control, over the financial and operating policies. A joint venture is an arrangement in which the Group has joint control, whereby the Group has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interest in associates and joint venture are accounted for using the equity method. They are initially recognised at cost which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of income and expenses and OCI of equity-accounted investees, until the date on which significant influence or joint control ceases. Associates are assessed for impairment.

The net investment in an associate or joint venture is impaired and impairment losses are incurred if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the net investment (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows from the net investment that can be reliably estimated.

vi) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses (except for foreign currency transaction gains and losses) arising from intra-group transactions, are eliminated. Unrealised gains arising from transactions with equity-accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

b) Foreign currency**(i) Foreign currency transactions**

Transactions in foreign currencies are translated to the respective functional currencies of Group entities at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at reporting date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the period, adjusted for payments during the period, and the amortised cost in foreign currency translated at the exchange rate at the end of the reporting period. Exchange differences arising on the settlement of monetary items and on retranslation are recognised in profit or loss.

Non-Monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Foreign currency differences are generally recognised in profit or loss and presented within finance costs.

However, foreign currency differences arising from the translations of an investment in equity securities designated as at FVOCI (except on impairment, in which case foreign currency differences that have been recognised in OCI) are classified to profit or loss.

(ii) Financial statements of foreign operations

The assets and liabilities of the Group's subsidiaries and associates based outside the Kingdom of Bahrain ("foreign operations"), including goodwill and fair value adjustments arising on acquisition, are translated into Bahraini Dinars at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into Bahraini Dinars at average exchange rates prevailing during the year.

8. Significant accounting policies (continued)

Foreign currency differences are recognised in the other comprehensive income and presented in equity as a foreign currency translation reserve. Foreign currency differences are accumulated into foreign currency translation reserve in owners' equity, except to the extent the translation difference is allocated to NCI.

When foreign operation is disposed of in its entirety or partially such that control, significant influence or joint control is lost, the cumulative amount in the translation reserve is reclassified to consolidated profit or loss as part of the gain or loss on disposal.

c) Revenue from contracts with customers

Revenue is measured based on the consideration specified in a contract with a customer. The Group recognises revenue when it transfers control over a good or service to a customer.

Nature of goods and service**(i) Sale of equipment**

Revenue from handset and other equipment sales is recognised when the product is delivered, and on transfer of control to the customer.

If revenue arrangements from bundled contracts include more than one Performance Obligation (PO), the arrangement consideration is allocated to each performance obligation based on their relative standalone selling price (SSP).

For equipment sold with the right of return after the control has been passed onto the customer, the Group defers revenue based on the expected returns per the historical return data for the last 24 months. Such revenue will need to be recognized only when the related return period expires.

(ii) Provision of Network Services

Revenue for access charges, airtime usage and messaging by contract customers is recognised as services are performed, with unbilled revenue resulting from services already provided accrued at the end of each period and unearned revenue from services to be provided in future periods deferred.

Revenue from the sale of prepaid credit is deferred until such time as the customer uses the airtime, or the credit expires. Deferred revenue related to unused airtime is recognised when utilised by the customer. Upon termination of the customer contract, all deferred revenue for unused airtime is recognised in the profit or loss.

Revenue from interconnect fees is recognised at the time the services are performed. Revenue from data services is recognised when the Group has performed the related service and, depending on the nature of the service, is recognised either at the gross amount billed to the customer or the amount receivable by the Group as commission for facilitating the service.

(iii) Contract Costs

Contract costs that are incremental in obtaining a contract with a customer are capitalized and amortised over the period of related revenues. Applying the practical expedient per IFRS15, the Group recognises incremental cost of obtaining a contract as an expense when incurred if the amortisation period of the assets that the Group otherwise would have recognised is one year or less.

(iv) Contract assets

The contract assets primarily relate to the Group's rights to consideration for work completed but not billed at the reporting date. The contract assets are transferred to receivables when the rights become unconditional. This usually occurs when the Group issues an invoice to the customer.

8. Significant accounting policies (continued)

(v) Contract liabilities

The contract liabilities primarily relate to the advance consideration received from customers for which revenue is recognised over time as the related performance obligations are fulfilled.

d) Property and equipment*(i) Recognition and measurement*

Items of property and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and any accumulated impairment losses.

The cost includes expenditures that are directly attributable to the acquisition cost of the asset. The cost of self-constructed assets includes the following:

- the cost of materials and direct labour;
- any other costs directly attributable to bringing an asset to its working condition for their intended use;
- when the Group has an obligation to remove the assets or restore the site, an estimate of the costs of dismantling and removing the items and restoring the site on which they were located; and
- capitalised borrowing costs.

Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment. Where parts of an item of property and equipment have different useful lives, they are accounted for as separate items (major components) of property and equipment.

Any gains and losses on disposal of an item of property and equipment are determined by comparing the proceeds from disposal with the carrying amount of property and equipment and are recognised in profit or loss.

(ii) Subsequent expenditure

Subsequent expenditure is capitalised only when it is probable that the future economic benefits associated with the expenditure will flow to the Group. On-going repair and maintenance are expensed as incurred.

(iii) Depreciation and useful life assessment

Depreciation is charged to the profit or loss on a straight-line basis over the estimated useful lives of each part of an item of a property and equipment. Assets are depreciated from the date they are available for use or, in respect of self-constructed assets, from the time an asset is completed and ready for service. Freehold land, projects in progress and inventories held for capital projects are not depreciated. The estimated useful lives for the current and comparative period are as follows:

Asset class	Current Estimated useful life (Years)
Buildings	5 - 50
Network assets & telecom equipment	2 - 40
Motor vehicles, furniture, fittings & office equipment	2 - 10

Depreciation methods, useful lives and residual values, are reassessed and adjusted, if appropriate, at the year end.

(iv) Impairment

Where there has been an indication of impairment in value such that the recoverable amount of an asset falls below its net book value, provision is made for such impairment. Wherever possible, individual assets are tested for impairment. However, impairment can often be tested only for groups of assets because the cash flows upon which the calculation is based do not arise from the use of a single asset.

In these cases, impairment is measured for the smallest group of assets (the cash generating unit) that produces a largely independent income stream, subject to constraints of practicality and materiality.

8. Significant accounting policies (continued)

e) Investment property

Investment property is property held either to earn rental income or for capital appreciation or for both and that is not occupied by the Group for use in rendering of its services or for administrative purposes. Investment property is initially measured at cost (using the cost model), including related transaction costs and borrowing costs incurred for the purpose of acquiring, constructing or producing a qualifying investment property, less accumulated depreciation and impairment losses, if any. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably.

Rental income from investment property is recognised as other income in straight-line basis over the term of the lease. Lease incentives granted are recognised as an integral part of the total rental income, over the term of the lease.

f) Goodwill and other intangible assets**Goodwill**

Goodwill arising on the acquisition of subsidiaries is measured at cost less any accumulated impairment losses. Goodwill is not amortised but tested for impairment annually at the balance sheet date.

Research and development

Expenditure on research activities is recognised in profit or loss as incurred.

Development expenditure is capitalised only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable and the Group intends to and has sufficient resources to complete development and to use or sell the asset. Otherwise, it is recognised in profit or loss as incurred. Subsequent to initial recognition, development expenditure is measured at cost less accumulated amortisation and any accumulated impairment losses.

Other intangible assets

License fees, trade name, customer relationships & associated assets, non-network software and Indefeasible Rights of Use (IRUs). acquired or incurred by the Group have finite useful lives and are measured at cost less accumulated amortisation and any accumulated impairment losses.

Subsequent expenditure is capitalised only when it increases future economic benefits embodied in specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill is recognised in profit or loss as incurred.

(i) Amortisation and useful life assessment

Amortisation is recognised in the profit or loss on a straight line basis over the estimated useful lives of the intangible assets from the date they are available for use. The estimated useful lives for the current and comparative periods are as follows:

Asset class	Estimated useful life (Years)
License fees	7 - 20
Trade name, customer relationships, non-network software and IRUs	3 - 20

8. Significant accounting policies (continued)

Amortisation methods, useful lives and residual values, are reviewed at each reporting date and adjusted, if appropriate.

g) Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a lessee

At commencement or on modification of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property the Group has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Group by the end of the lease term or the cost of the right-of-use asset reflects that the Group will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

The Group determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, if the Group changes its assessment of whether it will exercise a purchase, extension or termination option or if there is a revised in-substance fixed lease payment.

8. Significant accounting policies (continued)

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Group presents right-of-use assets that do not meet the definition of investment property in 'property, plant and equipment' and lease liabilities in 'loans and borrowings' in the statement of financial position.

Short term leases and lease of low-value assets

The Group has elected not to recognise right-of-use assets and lease liabilities for leases of low-value assets and short-term leases, including IT equipment. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

Extension options

Some leases contain extension options exercisable by the Group up to one year before the end of the non-cancellable contract period. Where practicable, the Group seeks to include extension options in new leases to provide operational flexibility. The extension options held are exercisable only by the Group and not by the lessors. The Group assesses at lease commencement date whether it is reasonably certain to exercise the options if there is a significant event or significant changes in circumstances within its control.

Leases as lessor

The Group leases out its investment property consisting of its owned commercial properties as well as leased property (see Note 10). All leases are classified as operating leases from a lessor perspective.

h) Operating profit

Operating profit is the result generated from the continuing principal revenue-producing activities of the Group as well as other income and expenses related to operating activities. Operating profit excludes net finance costs, impairment and share of profit of equity-accounted investees and income taxes.

i) Financial instruments

(i) Recognition and initial measurement

All "regular way" purchases and sales of financial assets are recognised on the settlement date, i.e. the date that the Group receives or delivers the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the timeframe generally established by regulation or convention in the market place.

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instruments.

A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is measured initially at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financial component is initially measured at the transaction price.

8. Significant accounting policies (continued)

(ii) Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at: amortised cost, fair value through other comprehensive income (FVOCI) or fair value through profit and loss (FVTPL).

A financial asset (which is not an equity instrument) is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- The asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt instrument is measured at FVOCI only if it meets both of the following conditions and is not designated as at FVTPL:

- The asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis.

In addition, on initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI, at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

All other financial assets are classified as measured at FVTPL.

The Group currently classified all its receivables and financial liabilities at amortised cost except for contingent consideration payable which is measured at FVTPL and investments (debt and equity) which are carried at either FVTPL or FVOCI.

Business model assessment

The Group makes an assessment of the objective of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- The stated policies and objectives for the portfolio and the operation of those policies in practice. In particular, whether management's strategy focuses on earning contractual interest revenue, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realising cash flows through the sale of the assets;
- How the performance of the portfolio is evaluated and reported to the Group's management;
- The risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- How managers of the business are compensated - e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and

8. Significant accounting policies (continued)

- The frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Group's stated objective for managing the financial assets is achieved and how cash flows are realised.

Financial assets that are held for trading or managed and whose performance is evaluated on a fair value basis are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Group considers:

- Contingent events that would change the amount and timing of cash flows;
- Leverage features;
- Prepayment and extension terms;
- Terms that limit the Group's claim to cash flows from specified assets (e.g. non-recourse asset arrangements); and
- Features that modify consideration of the time value of money - e.g. periodical reset of interest rates.

Reclassifications

Financial assets are not reclassified subsequent to their initial recognition, except in the period after the Group changes its business model for managing financial assets.

Financial liabilities

The Group classifies its financial liabilities, other than financial guarantees and loan commitments, as measured at amortised cost.

Derecognition

Financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of ownership or (b) when it has neither transferred or retained substantially all the risks and rewards and when it no longer has control over the financial asset, but has transferred control of the asset.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognised in OCI is recognised in profit or loss.

Any cumulative gain/ loss recognised in OCI in respect of equity investment securities designated as at FVOCI is not recognised in profit or loss on derecognition of such securities. Any interest in transferred financial assets that qualify for derecognition that is created or retained by the Group is recognised as a separate asset or liability.

*8. Significant accounting policies (continued)***Write-off**

A financial asset is written off (either partially or in full) when there is no realistic prospect of recovery. This is generally the case when the Group determines that the obligor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

Financial liabilities

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expired.

The Group currently has certain debt securities measured at FVOCI and equity investment designated as at FVOCI. For debt securities measured at FVOCI, gains and losses are recognised in OCI, except for the following, which are recognised in profit or loss in the same manner as for financial assets measured at amortised cost:

- Interest expense using the effective interest method;
- Expected Credit Losses (ECL) and reversals; and
- Foreign exchange gains and losses.

When debt security measured at FVOCI is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss.

The Group elects to present in OCI changes in the fair value of certain investments in equity instruments that are not held for trading. The election is made on an instrument-by-instrument basis on initial recognition and is irrevocable. Gains and losses on such equity instruments are never reclassified to profit or loss and no impairment is recognised in profit or loss. Dividends are recognised in profit or loss, unless they clearly represent a recovery of part of the cost of the investment, in which case they are recognised in OCI. Cumulative gains and losses recognised in OCI are transferred to retained earnings on disposal of an investment.

j) Government grant

Government grants that compensate the Group for expenses incurred are recognised in profit or loss as a reduction of associated cost in the periods in which the expense are recognised.

k) Share capital

The Company has one class of equity shares. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity. The Group classifies capital instruments as financial liabilities or equity instruments in accordance with the substance of the contractual terms of the instruments.

l) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a weighted average basis and includes expenditure incurred in bringing them to their existing location and condition. Net realisable value is the estimated selling price in the ordinary course of business, less selling expenses. Inventories comprise of mobile handsets, cable and wires and other inventories.

8. Significant accounting policies (continued)

m) Provisions

Provisions are recognised when the Group has a present obligation as a result of a past event and it is probable that the Group will be required to settle that obligation. Provisions are measured at the management's best estimate of the expenditure required to settle the obligation at the year end and are discounted to present value where the effect is material.

A provision for onerous contracts is recognised when the expected benefits to be derived by the Group from the contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract.

n) Impairment

(i) Financial assets

The Group measures loss allowances for its trade and other receivables arising from its revenue generating activities at an amount equal to lifetime Expected Credit Loss (ECL) using the simplified approach permitted under Financial Instruments ("IFRS 9"). For other financial instruments, the Group applies the general approach, where if credit risk has not increased significantly since their initial recognition, impairment is measured as 12-month ECL and for all other instances lifetime ECL is recognised.

For trade and other receivables, the Company has applied the standard's simplified approach and has calculated ECLs based on lifetime expected credit losses. The Company has established a provision matrix that is based on the Company's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Under the general approach, the Group applies three-stage approach to measuring ECL on financial assets carried at amortised cost (including long term loans included within the carrying value of investment in associates) and debt instruments classified as FVOCI. Assets migrate through the following three stages based on the change in credit quality since initial recognition.

a) Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

b) Stage Classification: General approach

Stage 1: 12 months ECL

For exposures where there has not been a significant increase in credit risk since initial recognition, the portion of the lifetime ECL associated with the probability of default events occurring within next 12 months is recognised.

Stage 2: Lifetime ECL - not credit impaired

For credit exposures where there has been a significant increase in credit risk since initial recognition but that are not credit impaired, a lifetime ECL is recognised.

Stage 3: Lifetime ECL - credit impaired

Financial assets are assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred.

8. Significant accounting policies (continued)**(ii) Non-financial assets**

The carrying amounts of the Group's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For goodwill and intangible assets that have indefinite lives or that are not yet available for use, the recoverable amount is estimated at each reporting date.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

The goodwill acquired in a business combination, for the purpose of impairment testing, is allocated to cash-generating units that are expected to benefit from the synergies of the combination.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit (group of units) on a pro rata basis. An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

o) Employee benefits**(i) Short term employee benefits**

Short term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(ii) Local employees

Pension rights and other social benefits for the Group's employees are covered by the applicable social insurance scheme of the countries in which they are employed are considered as a defined contribution scheme. The employees and employers contribute monthly to the scheme on a fixed-percentage-of-salaries basis.

(iii) Expatriate employees

Expatriate employees on limited-term contracts are entitled to leaving indemnities payable under the respective labour laws of the countries in which they are employed, based on length of service and final remuneration. Provision for this unfunded commitment has been made by calculating the notional liability had all employees left at the reporting date.

(iv) Defined benefit scheme

The Group's net obligation of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

8. Significant accounting policies (continued)

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Group, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in OCI. The Group determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to the defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in profit or loss. The Group recognizes gains and losses on the settlement of a defined benefit plan when settlement occurs.

(v) Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

(vi) Employee savings scheme

The Company has a voluntary employees saving scheme. The employees and employers contribute monthly on a fixed-percentage-of-salaries-basis to the scheme. The scheme is a defined contribution plan.

(vii) Employee share awards

The fair value of share awards granted under the Group Employee Share Awards Plan ("Plan") is recognised as an employee benefits expense, with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the awards granted.

The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of awards that are expected to vest. It recognises the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

The Plan is administered by the Employee Share Trust ("Trust"), which is consolidated in accordance with the principles defined in note 15. When the shares are granted at the end of vesting period, the Trust transfers the appropriate amount of shares to the employee. The difference between the value of shares transferred to the employee and treasury shares purchased earlier for this purpose is credited or debited to retained earnings.

(viii) Termination benefits

Termination benefits are expensed at the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognises costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are discounted.

8. Significant accounting policies (continued)

p) Finance and related income

The Group's finance and related income includes:

- interest income;
- dividend income;
- foreign currency gain on financial assets and financial liabilities;
- net gain on financial assets at FVTPL; and
- gain on remeasurement to fair value of any pre-existing interest in an acquiree in a business combination.

Interest income is recognised using the effective interest method. Dividend income is recognised in profit or loss on the date on which the Group's right to receive payment established.

The 'effective interest rate' is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument to the gross carrying amount of the financial asset.

In calculating interest income, the effective interest rate is applied to the gross carrying amount of asset (when the asset is not credit-impaired).

However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

q) Finance and related expenses

The Group's finance and related expense includes:

- interest expense;
- foreign currency loss on financial liabilities; and
- net loss on financial assets at FVTPL.

Interest expense is recognised using the effective interest method. The 'effective interest rate' is the rate that exactly discounts estimated future cash payments through the expected life of the financial instrument to the gross carrying amount of the financial liability.

In calculating interest expense, the effective interest rate is applied to the gross carrying amount of the amortised cost of the liability.

Borrowing costs are recognised as an expense in the period in which they are incurred, except to the extent where borrowing costs are directly attributable to the construction of an asset that takes a substantial period to get ready for its intended use or sale, in which case borrowing costs are capitalised as part of that asset.

r) Tax

Tax expense comprises current and deferred tax. Income tax expense is recognised in the profit or loss except to the extent that it relates to items recognised directly in equity or in other comprehensive income, in which case it is recognised in equity or other comprehensive income.

(i) Current tax

Current tax is the expected tax payable on taxable income for the year, using tax rates enacted or substantively enacted at reporting date, and any adjustment to tax payable in respect of previous years.

8. Significant accounting policies (continued)**(ii) Deferred tax**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary difference can be realised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised. Additional income taxes that arise from the distribution of dividends are recognised at the same time as the liability to pay the related dividend is recognised.

s) Earnings per share

The Group presents basic earnings per share ("EPS") data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. The diluted earnings per share is the same as the basic earnings per share as the Group does not have any dilutive instruments in issue.

t) Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. All operating segments' operating results are reviewed by the Group's Board of Directors to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available (refer to note 39). The Group primarily identifies its segment on the basis of geographical operations that are managed as a single performance unit for the purpose of internal reporting to its Board of Directors.

u) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal, or in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability reflects its non-performance risk.

When available, the Group measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

When there is no quoted price in an active market, the Group uses valuation techniques that maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The chosen valuation technique incorporates all the factors that market participants would take into account in pricing a transaction. The Group recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.

v) Asset held-for-sale

(i) Classification

The Group classifies non-current assets as held-for-sale if its carrying amount is expected to be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable in accordance with IFRS 5 "Non-current Assets Held-for-Sale and Discontinued Operations".

(ii) Measurement

Non-current assets classified as held-for-sale are measured at the lower of its carrying amount and fair value less costs to sell.

If the criteria for classification as held-for-sale are no longer met, the Group ceases to classify the asset as held-for-sale and measures the asset at the lower of its carrying amount before the asset was classified as held-for-sale, adjusted for any depreciation, amortisation or revaluations that would have been recognised had the asset not been classified as held-for-sale and its recoverable amount at the date of the subsequent decision not to sell.

10. Right-of-Use Assets and Lease Liabilities

The Group leases telecom sites, retail shops and other rented premises and equipment. The leases typically run for a period of 5-10 years, with an option to renew the lease after that date. Lease payments are renegotiated at the time of signing the new contract to reflect market rentals. Some leases provide for additional rent payments that are based on changes in local price indicators. For certain leases, the Group is restricted from entering into any sub-lease arrangement.

a) Right-of-Use Assets

Information about leases for which the Group is a lessee is presented below. Right-of-use assets related to leased properties that do not meet the definition of investment property.

Balance at 1 January	43,455	553	1,383	45,391
Additions	13,660	185	-	13,845
Amortisation charge for the year	(8,041)	(108)	(561)	(8,710)
Effect of movements in exchange rates	445	-	(1)	444
Balance at 31 December	49,519	630	821	50,970

b) Lease Liabilities

	2021	2020
Current	8,046	7,185
Non-current	45,527	43,852
Balance at 31 December	53,573	51,037

	2021	2020
Amounts recognised in profit or loss		
Interest on leases liabilities	3,121	2,164
Expenses relating to short-term leases/ low value leases (note 27)	5,357	4,594

c) Leases as lessor

The Group leases out its owned commercial properties on agreed commercial terms, and leases are classified as operating leases.

11. Goodwill

	2021	2020
At 1 January	137,504	136,208
Goodwill on acquisition of subsidiary	-	369
Exchange rate adjustments	(245)	927
At 31 December	137,259	137,504

a) Analysis of Goodwill

Goodwill has been allocated to the following operating segments/ cash generating units (CGUs):

	2021	2020
Jordan	91,875	91,804
Maldives	21,871	21,871
Sure	23,476	23,792
Others	37	37
	137,259	137,504

b) Impairment of goodwill

- (i) The Group tests for impairment of goodwill annually or more frequently if there are any indications that impairment may have arisen. The recoverable amount of a Cash Generating Unit (CGU) has been determined based on fair value less costs to sell. Fair value less costs to sell is estimated by using a combination of the capitalised earnings approach and a market approach comparing the same with those of other telecom companies within the region.
- (ii) The key assumptions for the fair value less costs to sell calculations are those relating to discount rates, the long term growth rates, penetration and market share assumptions, average revenues per user, earnings before interest, taxation, depreciation and amortisation ("EBITDA") and capital expenditure to sales ratio. These calculations use cash flow projections based on financial budgets approved by management, covering the period of the validity of the telecom license (typically 5 years). Cash flows are extrapolated using the estimated growth rates (range between 1% to 2.7%). The weighted average growth rates are consistent with forecasts. The post-tax discount rates used for the calculations range between 10% to 14.5%.
- (iii) The above estimates were tested by the Group for sensitivity in the following areas:
- An increase/ decrease in the discount rate and the long-term growth rates used
 - A change in market share
 - A decrease in future planned revenues and EBITDA margins
 - An increase in capex to sales ratio forecasts

The results of the sensitivity testing revealed that the fair values less costs to sell calculations is sensitive to changes in the above variables, and any adverse change in key assumptions could result in a materially significant change in the carrying value of the goodwill and related assets. The recoverable amount of the CGUs was more than the carrying value and accordingly no impairment loss has been recognised in 2021 (2020: nil) in respect of goodwill allocated to the CGUs. Refer note on segment reporting (note 39) for details of net assets (including goodwill and intangibles) attributable to each CGU.

12. Other Intangible Assets

At 31 December	109,725	28,096	137,821

Others includes trade name, customer relationship and associated assets, non-network softwares and indefeasible right to use (IRU) including those recognised as part of acquisition accounting.

13. Equity Accounted Investees

	2021	2020
Investment in Sabafon	(i) -	-
Investment in ARC	(ii) 2,230	2,918
Investment in FiberTech	(iii) 4,912	1,791
	7,142	4,709

Bahrain Telecommunications Company BSC

Notes to the consolidated financial statements

For the year ended 31 December 2021

BD'000

13. Equity accounted investees (continued)

- i. This represents Group's 26.94% investment in Sabafon. Following the crisis in Yemen, this investment was written off to nil in 2019.
- ii. This represents a joint venture with another regional operator to provide telecom infrastructure services within the GCC region. During the year, the Group recorded a loss of BD 688 (2020: BD 262) as its share of losses of this joint venture.
- iii. This represents 49% of share capital of The Jordanian Company for Advanced Optical Fiber ("FiberTech"). The principal activities of FiberTech are to provide mass high-speed internet services to telecommunications companies and internet service providers operating in Jordan. During the year, the Group made an additional capital contribution of BD 3,006 and recognized a gain of BD 115 (2020: loss of BD 661) in respect of its share of gain from this associate.

14. Income Taxes

Amounts recognised in profit or loss for the year

	2021	2020
Current tax expense	8,824	6,659
Deferred tax credit (net)	(1,074)	(1,710)
Tax expense for the year	7,750	4,949

Corporate income tax is not levied in the Kingdom of Bahrain for telecommunication companies and accordingly the effective tax rate for the Corporation is 0% (2020: 0%). The table below reconciles the difference between the expected tax expense of nil (2020: nil) (based on the Kingdom of Bahrain effective tax rate) and the Group's tax charge for the year. Subsidiaries are taxed at the combination of various tax rates ranging from 15% to 27%.

Reconciliation of actual to expected tax charge

	2021	2020
Profit before tax	82,262	68,794
Corporation tax rate of 0% in Bahrain (2020: 0%)	-	-
Effect of different tax rates of subsidiaries operating in other jurisdictions	(7,750)	(4,949)
Tax expense for the year	(7,750)	(4,949)
Profit after tax for the year	74,512	63,845

The following represent the deferred tax liabilities recognised by the Group and movements thereon during the current and prior reporting period:

	2021	2020
At 1 January	8,896	10,512
Credit to the consolidated profit or loss	(1,176)	(1,768)
Other movements	47	(33)
Exchange differences	(66)	185
At 31 December	7,701	8,896

The recognised deferred tax asset of BD 7,429 (2020: BD 8,642) is attributable to the temporary differences related to Group's operations in Jordan, Maldives and Channel Islands jurisdictions.

15. Post-Employment Benefit Assets**a) Unfunded Defined benefits**

The provision for leaving indemnity in respect of employees amounted to BD 1.7 million (2020: BD 1.6 million) and is included under Trade and Other Payables.

b) Defined contribution plan

The Group's contributions in respect of employees against their pension rights and other social benefits amounted to BD 4.3 million (2020: BD 5.0 million).

c) Share-based payments

During 2020, the Group established the Employee Option Plan ("Plan"). The Plan is designed to provide long-term incentives for selected management personnel to deliver long-term financial KPIs. Under the Plan, participants are granted shares (awards), which only vest if certain performance standards are met. Participation in the Plan is at the board's discretion, and no individual has a guaranteed contractual right to participate in the Plan or to receive any guaranteed benefits.

Shares are granted under the Plan for no consideration and carry no dividend or voting rights. The grant share price is the average of Batelco's share price quoted on Bahrain Bourse for each trading day during the month of January preceding the grant date of 1 April. Shares granted to participants are held by a trustee in a trust established solely for these share awards until vesting. The amount of shares that will vest after 3 years ("Vesting Period") depends on cumulative achievement of Group's financial targets over a three-year period. The vesting date relating to every Vesting Period is 1 April following the completion of the Vesting Period. All awards are vested to participants on the vesting date.

During the year, the Group awarded 293,986 shares (2020: 1,418,555 shares) to its employees under the Plan. The assessed fair value at grant date of shares granted during the year ended 31 December 2021 was BD 0.5975 per share (2020: BD 0.390 per share). The number of shares forfeited during the year was 78,422 (2020: nil). Weighted average remaining contractual life of shares outstanding at end of the year was 1.65 years (2020: 2.25 years).

16. Investments

		2021	2020
I. Investments securities			
a. At Fair Value Through Other Comprehensive Income (at FVOCI)			
- Debt securities	(i)	7,180	7,697
- Equity securities	(ii)	14,251	5,863
b. At Fair Value Through Profit and Loss (at FVTPL)			
- Equity securities		11	11
		21,442	13,571
II. Investment properties	(iii)	5,247	6,997
		26,689	20,568

Investments are classified as follows:

	2021	2020
Current assets	3,611	497
Non-current assets	23,078	20,071
	26,689	20,568

Bahrain Telecommunications Company BSC

Notes to the consolidated financial statements

For the year ended 31 December 2021

BD'000

16. Investments (continued)

(i) Debt securities comprise Group's investment in:

- Bahrain Sovereign Bonds amounting to BD 7.0 million (2020: BD 7.2 million). These bonds have maturity dates ranging from 2022 to 2023, carry a fixed semi-annual coupon interest ranging from 5.5% to 6.125% per annum on the face value. At 31 December 2021, BD 3.5 million (2020: nil) of these bonds were classified under current assets as maturing within next 12 months.
- Treasury bills amounting to BD 0.1 million (2020: BD 0.5 million) These bills have maturity dates up to 3 months and carry interest ranging from 2.20% to 2.21% per annum on the face value. At 31 December 2021, all of these bills were classified under current assets as maturing within 12 months.

(ii) Equity securities at FVOCI include:

- BD 10.1 million (2020: BD 3.8 million) representing market value of equity investment in Etihad Atheeb Telecommunications Company ("Atheeb"), a company listed on Saudi Stock Exchange.
- BD 4.1 million (2020: BD 2.1 million) representing Group's investment in Al Waha Venture Capital Fund of Funds, which is closed ended Bahrain domiciled PIU managed by Bahrain Development Bank. The carrying value represents the net asset value of the fund which approximates its fair value.

(iii) Investment properties comprise Group's investment in certain land plots in an overseas territory that were acquired during 2018 as part of an exchange transaction and are fair valued at 31 December 2021 based on management estimates.

17. Trade and Other Receivables

	2021	2020
Trade receivables	84,158	87,212
Contract assets (unbilled revenue)	27,690	29,848
Less impairment allowance	(28,047)	(25,232)
	83,801	91,828
Prepaid expenses	8,192	8,057
Other receivables	43,900	44,002
	135,893	143,887

The maximum exposure to credit risk for trade and other receivables at the reporting date by type of counterparty was as follows:

	2021	2020
Customer accounts	37,825	44,418
Telecom operators	18,286	17,562
Contract assets (unbilled revenue) (note 26)	27,690	29,848
	83,801	91,828

The movement on the allowance for impairment was as follows:

	2021	2020
At 1 January	25,232	21,219
Impairment loss recognized for the year	3,448	4,302
Effect of movements in exchange rates	(9)	15
Written off during the year	(624)	(304)
At 31 December	28,047	25,232

The impairment allowances as at 31 December 2021 and 2020 represent life-time ECL on trade receivables and contracts assets (refer to note 33).

Bahrain Telecommunications Company BSC

Notes to the consolidated financial statements

For the year ended 31 December 2021

BD'000

18. Cash and Bank Balances

	2021	2020
Cash in hand	147	79
Bank balances	220,597	195,220
	220,744	195,299

Bank balances include BD 82,017 (2020: BD 51,842) of short-term deposits with maturities exceeding three months and unclaimed dividends which have been excluded for the purposes of statement of cash flows.

19. Trade and Other Payables

	2021	2020
Trade payables	75,379	68,869
Amounts due to telecommunications operators	9,880	10,995
Provisions, accrued expenses and other payables	89,736	84,692
Contract liabilities (note 26)	3,359	3,298
Customer deposits and billings in advance	29,479	26,321
Current tax liability	3,922	2,337
	211,755	196,512

Trade and other payables are classified as follows:

	2021	2020
Current liabilities	185,015	176,680
Non-current liabilities	26,740	19,832
	211,755	196,512

Significant changes in the contract liabilities balances during the year are as follows:

	2021	2020
At 1 January	3,298	3,954
Contract liabilities recognized during the year	24,652	40,795
Transferred to revenue during the year	(24,584)	(41,471)
Effect of movements in exchange rates	(7)	20
At 31 December	3,359	3,298

20. Provisions

Included within provisions, accrued expenses and other payables are amounts provided for voluntary employee retirement program and asset retirement obligation. The movement in provisions is as follows:

20. Provisions (continued)

	Voluntary employee retirement program		Asset retirement obligation	
	2021	2020	2021	2020
At 1 January	-	404	3,347	3,182
Amounts provided during the year	2,120	-	169	165
Amounts paid during the year	-	(404)	(99)	-
Reclassification from other accruals	-	-	-	-
Amounts written back during the year	-	-	-	-
At 31 December	2,120	-	3,417	3,347

Voluntary Employee Retirement Program

During 2021, the Board of Directors of one of the Group Companies approved a voluntary employee retirement program to restructure the operations in line with its strategy. A provision of BD 2.1 million was recognized during the year in this regard.

Asset Retirement Obligation

The provision for asset retirement obligations represent the provisions made for the best estimate of the present value of the unavoidable future cost of dismantling and removing the items of property and equipment and restoring the sites on which they are located. The following assumptions have been used to calculate the asset retirement obligation at reporting date:

	2021	2020
Expected rate of increase of the dismantling cost	3.50%	3.50%
Discount rate	10%	10%

21. Loans and Borrowings

		2021	2020
a) Current			
Term financing facilities	(i)	1,206	13,630
Overdraft facilities	(ii)	-	8,709
Import loan facility	(iii)	2,516	-
		3,722	22,339
b) Non-current			
Term financing facilities	(i)	53,501	31,640
Long term loan	(iv)	169,650	169,650
		223,151	201,290
		226,873	223,629

i) Terms financing facilities include:

a) Long term loan facility with a total available amount of BD 58.5 million (2020: BD 58.5 million) has been utilised by a Group company to fund the company's working capital and license fees. The facility bears an interest rate of PLR – 3.35% per annum and was due to be settled by 2023. During the year, the terms of this loan were renegotiated and accordingly it was extended for 10 years with a three year grace period. As at 31 December 2021, a total amount of BD 24.4 million (2020: BD 24.4 million) is outstanding against this facility out of which BD nil (2020: BD 9.7 million) is classified under current liabilities being due within the next 12 months;

21. Loans and Borrowings (continued)

- b) Long term loan facility with a total available amount of BD 8.0 million (2020: BD 8.0 million) has been obtained by a Group company to fund the company's infrastructure and network requirements. The facility bears an interest rate of PLR – 2.2% per annum and was due to be settled by 2025. During the year, the terms of this loan were renegotiated and accordingly it was extended for 10 years with a three-year grace period. As at 31 December 2021, a total amount of BD 6.8 million (2020: BD 7.2 million) is outstanding against this facility out of which BD nil (2020: BD 1.6 million) is classified under current liabilities being due within the next 12 months;
- c) Long term loan facility with a total available amount of BD 12.8 million (2020: BD 12.8 million) has been obtained by a Group company to fund the company's license fees. The facility bears an interest rate of PLR – 2.125% per annum and was due to be settled by 2024. During the year, the terms of this loan were renegotiated and accordingly it was extended for 10 years with a three-year grace period. As at 31 December 2021, a total amount of BD 12.7 million (2020: BD 12.8 million) is outstanding against this facility of which nil (2020: BD 2.1 million) is classified under current liabilities being due within the next 12 months;
- d) Long term loan facility with a total available amount of BD 8.0 million (2020: BD 8.0 million) has been obtained by a Group company to fund the company's share in a joint venture. The facility bears an interest rate of PLR - 1.75% per annum and was due to be settled by 2024. During the year, the terms of this loan were renegotiated and accordingly it was extended for 10 years with a three-year grace period. As at 31 December 2021, a total amount of BD 8.0 million (2020: BD 8 million) is outstanding against this facility of which BD nil (2020: BD 0.2 million) is classified under current liabilities being due within the next 12 months.
- e) Long term loan facility with a total available amount of BD 2.9 million has been obtained by a Group company during the year to finance the deferred capital payments. The facility bears an interest rate of 3 months LIBOR + 4.75% per annum and is due to be settled by May 2024. As at 31 December 2021, a total amount of BD 2.9 million is outstanding against this facility of which BD 1.2 million is classified under current liabilities being due within the next 12 months.
- ii) The overdraft facilities have been obtained by a Group company to support its working capital needs. The interest rates on these facilities range from 5.00% to 5.35% p.a. and the amount drawn at the balance sheet date amounted to BD nil (2020: BD 8.7 million). The undrawn overdraft limits as at 31 December 2021 amounted to BD 15.2 million (2020: BD 6.4 million);
- iii) The import loan facility with a total available amount of BD 2.6 million is obtained by a Group company to support its capital expenditure requirements. The interest rates on this facility is at the rate of 3 months LIBOR+4.75% p.a. and is due to be settled within 365 days for the amounts drawn down. The amount drawn at the balance sheet date amounted to BD 2.5 million (2020: nil) and is classified under current liabilities.
- iv) Long term loan facility with a total available amount of BD 169.7 million (2020: 169.7 million), of which BD 169.7 million is outstanding as of 31 December 2021 (2020: BD 169.7 million) was obtained by the Company to fund its bond repayment in May 2020. The facility bears an interest rate of Libor + 1.80% per annum and is due to be settled by one bullet payment in 2025.

*includes Batelco Group holdings of the treasury shares

24. Statutory and General Reserve**a) Statutory reserve**

The Bahrain Commercial Companies Law 2001 (as amended) requires all companies incorporated in Bahrain to transfer 10 % of net profit for the year to a statutory reserve, until such reserve reaches a minimum of 50 % of the paid-up capital. Transfer to statutory reserve, effected by the subsidiaries in accordance with the applicable law of the country of incorporation, is retained in the subsidiary concerned and included as part of Group statutory reserve. The reserve is not available for distribution, except in the circumstances stipulated in the applicable law of each country.

For the year ended 31 December 2021, no transfer to statutory reserves was proposed by the Board of Directors.

b) General reserve

The general reserve is distributable only upon a resolution of the shareholders at the Annual General Meeting. During the year a transfer of BD 1 was made to general reserve by one of the Group Companies, which is reflected in these financial statements.

25. Treasury Shares

	2021	2020
a) Market making shares		
As at 31 December (Amount)	<u>3,697</u>	<u>2,076</u>
Number of market making shares as at 31 December	<u>9,150,786</u>	<u>6,485,000</u>
b) Share based payment treasury shares		
As at 31 December (Amount)	<u>881</u>	<u>716</u>
Number of share based payment treasury shares as at 31 December	<u>1,712,541</u>	<u>1,418,555</u>
Total treasury shares (Amount)	<u>4,578</u>	<u>2,792</u>
Total number of treasury shares	<u>10,863,327</u>	<u>7,903,555</u>

Batelco is carrying out market making activities through a designated market maker, in accordance with the regulations promulgated by the Central Bank of Bahrain and the Bahrain Bourse. As per the regulations, the designated market maker of Batelco cannot hold more than 3% of Batelco's issued share capital at any time.

BD'000

26. Revenue (continued)

b) Contract Balances

The following table provides information about receivables, contract assets and contract liabilities from contracts with customers

	2021	2020
Trade receivables (before impairment allowance)	84,158	87,212
Contract assets	27,690	29,848
Contract liabilities	3,359	3,298

The contract assets primarily relate to the Group's rights to consideration for work completed but not billed at the reporting date. The contract assets are transferred to receivables when the rights become unconditional. This usually occurs when the Group issues an invoice to the customer. The contract liabilities primarily relate to the advance consideration received from customers for which revenue is recognised over time as the related performance obligations are fulfilled within 1 year.

c) Contract cost

During the year, the Group capitalized incremental commission fees paid to intermediaries as a result of obtaining contracts as contract costs amounting BD 1,850 (2020: BD 2,438). Such capitalized commission fees are amortised when the related revenues are recognized, which amortisation amounted to BD 1,511 in 2021 (2020: BD 1,593).

27. Network Operating Expenses

	2021	2020
Outpayments to telecommunications operators	46,831	56,663
Cost of sales of equipment and services	52,636	48,325
Maintenance and support /others	18,187	18,313
License fee	7,195	7,151
Operating lease rentals	5,357	4,594
	130,206	135,046

28. Other Operating Expenses

	2021	2020
Marketing, advertising and publicity	14,487	12,534
IT operations and maintenance	12,740	10,166
Professional fees	6,159	5,701
Office rentals, office utilities and office expenses	5,682	5,459
Other expenses	8,677	8,175
	47,745	42,035

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2021

BD'000

29. Other Income/(Expenses) (net)

	2021	2020
Other non-operating income	415	513
Foreign exchange gain	789	181
Gain on disposal of assets	40	25
Other non-operating expenses	(305)	(2,839)
Rental income	307	212
	1,246	(1,908)

30. Earnings Per Share ("EPS")

	2021	2020
Profit for the year attributable to equity holders of the Company	65,891	56,738
Weighted average number of shares outstanding during the year (in million)	1,654	1,657
Basic earnings per share (Fils)	39.8	34.2

Diluted earnings per share have not been presented separately as the Group has no commitments that would dilute earnings per share.

31. Dividends

The dividends paid in 2021 were BD 49.7 million (BD 30 Fils per share) and in 2020 were BD 51.4 million (BD 31 Fils per share). The dividends paid in 2021 include BD 27.3 million relating to the final dividend for the year ended 31 December 2020 and interim dividend (subject to AGM ratification) of BD 22.4 million for the year 2021. The total dividend in respect of the year ended 31 December 2021 of 30 Fils per share, amounting to BD 49.8 million (including final dividend of BD 27.4 million) is being proposed by the Board of Directors and is to be put forward for approval at the Annual General Meeting on 30 March 2022. These consolidated financial statements do not reflect the final dividend payable.

Trade payables	68,869	-	-	68,869
Accrued expenses, contract liabilities and other payables	84,692	-	-	84,692
Amounts due to telecommunications operators	10,995	-	-	10,995
Lease liabilities	51,037	-	-	51,037
Loans and borrowings	223,629	-	-	223,629
	439,222	-	-	439,222

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2021

BD'000

32. Financial Instruments - Classification and Measurement (continued)

b) Fair Value Hierarchy

The Group's financial assets and financial liabilities are measured at amortised cost except for certain investments which are carried at fair value.

The table below analyses financial instruments, by the level in the fair value hierarchy into which the fair value measurement is categorised:

31 December 2021	Fair value				Total carrying amount
	Level 1	Level 2	Level 3	Total fair value	
Financial assets at fair value through Profit and Loss (FVTPL)					
Investments - equity securities	-	-	11	11	11
Financial assets at fair value through OCI					
Investments - debt and equity securities	17,160	149	4,122	21,431	21,431

31 December 2020	Fair value				Total carrying amount
	Level 1	Level 2	Level 3	Total fair value	
Financial assets at fair value through Profit and Loss (FVTPL)					
Investments - equity securities	-	-	11	11	11
Financial assets at fair value through OCI					
Investments - debt and equity securities	-	7,697	5,863	13,560	13,560

There was a transfer from level 3 to level 1 during the year for Group's investment in an equity securities. The debt securities have been fair valued using its quoted prices. Other loans and borrowings are repriced at frequent intervals and hence the carrying value is a reasonable approximation of its fair value. The Group has not disclosed the fair value for financial instruments such as short-term trade and other receivables, trade and other payables and cash and bank balances, because their carrying amounts are a reasonable approximation of fair values.

The following table shows a reconciliation from the opening balances to closing balances for Level 3 fair values for debt and equity securities:

	2021	2020
Balance at 1 January	5,874	1,552
Additions to equity securities	858	4,322
Transfer of equity securities (Atheeb) to level 1	(3,811)	-
Increase in fair value of equity securities	1,212	-
Balance at 31 December	4,133	5,874

33. Financial instruments - Financial Risk Management

The Group has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk
- Capital management

a) Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Board of Directors of the Group, through its various committees, oversees how management monitors compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Group.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group has established an Audit Committee which is assisted by Group's Internal Audit Department. Internal Audit undertakes both regular and ad-hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

The Group has also established a centralised Group treasury function which works under the overall supervision of the Board of Directors of the Group and provides support to the Group for funding, foreign exchange, interest rate management and counterparty risk management. Treasury operations are conducted within a framework of policies and guidelines authorised and reviewed by the Group's Board of Directors. The Group's accounting function provides regular reports of the treasury activity to the Board of Directors. The Group's internal auditors review the internal control environment regularly. There has been no significant change during the financial year, or since the end of the year, to the types of financial risks faced by the Group or the Group's approach to the management of those risks.

b) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally and materially from the Group's trade receivables, contract assets, other receivables, long term financing to associates, debt investment securities and cash at bank.

(i) Trade receivables and contract assets

The Group's trade receivables are monitored based on its customer segmentation and geographical areas. The Group has an established credit policy under which each new customer is analysed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are offered. Credit limits are established for each customer, which represents the maximum open amount without requiring approval. Strict credit control is maintained for both credit period and credit limits, both of which are monitored continuously by management. Customers that fail to meet the Group's benchmark creditworthiness may transact with the Group only on a prepayment basis.

Concentrations of credit risk with respect to trade receivables are limited due to the Group's customer base being large and unrelated. The majority of the Group's net trade receivables are due for payment within 90 days and largely comprise amounts receivable from consumers and business customers. The Group obtains deposits for providing services to some customers.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
For the year ended 31 December 2021

BD'000

33. Financial instruments - Financial Risk Management (continued)

The Group establishes an allowance for impairment that represents its estimate of life time expected losses in respect of trade receivables and contract assets. The main components of this allowance are a specific loss component that relates to individually significant exposures, and a collective loss component established for groups of similar assets aggregated based on customer segment and days past due. For receivables from telecom operators and government accounts in the customer segment, the net position after considering payables is assessed based on a variety of data that are determined to be predictive of the risk of loss (including external credit ratings, financial statements and available external information) and applying experienced credit judgement. For receivables and contract assets from customers, accounts are segmented by type of exposure such as consumer, enterprise, and others accounts and collective life-time ECL allowance is determined based on historical flow rates, data on payment statistics, actual credit loss experience and management estimates of recoveries based on current status of negotiations and settlement with the customers. The historic loss experience is adjusted to reflect differences between economic conditions during the period over which historic data has been collected, current conditions and the Group's view of economic conditions over the remaining life-time of the receivables. Management believes there is no further credit risk provision required in excess of the normal impairment on receivables and contract assets (refer to note 18).

(ii) Other receivables

Other receivables primarily include receivables on sale of certain investments and financial assets representing contractual rights and claims by the Group. The Group evaluates the recoverable amount of each receivable and recognizes a provision where the expected present value of the cash flow from the financial asset is below the carrying value of the financial asset and has been fully impaired.

(iii) Debt investments and bank balances

The Group manages credit risk on its debt investments and bank balances by ensuring that these are made only after credit evaluation of the issuer. Term deposits are placed with commercial banks after credit evaluation of those banks and considering their external credit ratings. The Group limits its exposure to credit risk by investing in liquid securities, which offers low risk returns.

The calculated expected credit loss of bank balances and sovereign debt issuances is not material for recognition purposes.

(iv) Exposure to credit risk and credit quality

The carrying amount of financial assets (excluding equity investments) represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	2021	2020
Trade receivables - customer accounts	37,825	44,418
Contract assets - customer accounts	27,690	29,848
Total trade receivables and contract assets - customer accounts	65,515	74,266
Trade receivables - telecom operators	18,286	17,562
Other receivables	43,900	44,002
Investments (debt securities)	7,180	7,697
Cash at bank	220,744	195,220
	355,625	338,747

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2021

BD'000

33. Financial instruments - Financial Risk Management (continued)

	2021		2020	
	Gross carrying amount	Specific Life-time ECL, credit impaired	Gross carrying amount	Specific Life-time ECL, credit impaired
Trade receivables - telecom operators				
Externally rated				
Low risk (BBB- to AAA)	6,920	(319)	7,701	(1,100)
Medium risk (B- to BB+)	13,652	(2,656)	10,520	(1,385)
Higher risk (below C)	250	(38)	304	(50)
Unrated	510	(33)	1,581	(9)
	21,332	(3,046)	20,106	(2,544)

Movement in impairment allowance in respect of trade receivables and contract assets during the year are as follows:

	2021			2020		
	Collective life-time ECL	Specific life-time ECL, credit impaired	Total	Collective life-time ECL	Specific life-time ECL, credit impaired	Total
At 1 January	2,560	22,672	25,232	1,929	19,290	21,219
Written off during the year	-	(624)	(624)	-	(304)	(304)
Impairment loss recognised during the year	419	3,029	3,448	630	3,672	4,302
Effect of movements in exchange rates	2	(11)	(9)	1	14	15
Balance at 31 December	2,981	25,066	28,047	2,560	22,672	25,232

Receivables from government, enterprise customers/telecom operators and other receivables beyond 365 days, 180 days and 90 days past due respectively are considered triggers for credit impairment and are specifically assessed for establishing ECL.

(v) Customer accounts including contract assets

The maximum exposure to credit risk classified by operating segment sharing common economic characteristics with respect to credit risk is as follows:

Operating segment	2021	2020
Bahrain	40,384	45,466
Jordan	13,164	14,237
Maldives	9,783	12,245
Sure	2,123	2,267
Other countries	61	51
	65,515	74,266

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2021

BD'000

33. Financial instruments - Financial Risk Management (continued)

The maximum exposure to credit risk classified by customer segments sharing common economic characteristics (except government accounts) with respect to credit risk is as follows:

Customer segment	2021	2020
Consumer	21,204	22,164
Enterprise	27,993	29,992
Government	9,195	14,517
Others	7,123	7,593
	65,515	74,266

Customer accounts	2021			2020		
	Gross exposure	Life-time ECL	Net amount	Gross exposure	Life-time ECL	Net amount
Current (0 - 30 days)	43,118	(1,031)	42,087	44,619	(802)	43,817
31 - 90 days	11,909	(868)	11,041	12,467	(653)	11,814
91 - 365 days	11,509	(3,555)	7,954	18,333	(5,318)	13,015
More than 1 year	23,980	(19,547)	4,433	21,535	(15,915)	5,620
Balance as at 31 December	90,516	(25,001)	65,515	96,954	(22,688)	74,266

Consumer and other receivables balances that are past due for more than 90 days are considered to be in default and credit impaired. Receivables from government and enterprise customers/telecom operators beyond 365 days and 180 days past due respectively are considered triggers for credit impairment and are specifically assessed for establishing ECL. The gross exposure for credit impaired amounts in the customer accounts as at 2021 is BD 28,752 (2020: 28,967) carrying a life-time ECL provision of BD 22,220 (2020: 20,134).

(vi) Amounts due from telecom operators including contract assets

The maximum exposure to credit risk (net of ECL provisions) for amounts due from telecommunications operators by type of customer is as follows:

Telecom operators	2021	2020
International operators	8,970	8,456
Local operators	9,316	9,106
	18,286	17,562

c) Liquidity Risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. Liquidity risk may result from an inability to sell a financial asset quickly at close to its

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

BD'000

33. Financial instruments - Financial Risk Management (continued)

fair value. A major portion of the Group's funds are invested in cash and cash equivalents which are readily available to meet expected operational expenses, including the servicing of financial obligations.

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include estimated interest payments and exclude the impact of netting agreements:

Non-derivative financial liabilities at 31 December 2021	Carrying amount	Contractual cash flows	Within one year	1-5 Years	More than five years
Trade payables	75,379	75,379	55,054	-	20,325
Accrued expenses, contract liabilities and other payables	93,095	93,095	89,603	-	3,492
Amount due to telecommunications operators	9,880	9,880	9,880	-	-
Lease liabilities	53,573	69,529	10,965	32,752	25,812
Loans and borrowings	226,873	229,110	3,772	55,688	169,650
	458,800	476,993	169,274	88,440	219,279

Non-derivative financial liabilities at 31 December 2020	Carrying amount	Contractual cash flows	Within one year	1-5 Years	More than five years
Trade payables	68,869	68,869	53,909	-	14,960
Accrued expenses, contract liabilities and other payables	84,692	84,692	84,692	-	-
Amount due to telecommunications operators	10,995	10,995	10,995	-	-
Lease liabilities	51,037	55,157	9,908	17,168	28,081
Loans and borrowings	223,629	265,168	31,958	233,210	-
	439,222	484,881	191,462	250,378	43,041

d) Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk. The Group incurs financial liabilities, in order to manage market risks. All such transactions are carried out within the guidelines set by the Group Treasury Function.

(i) Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Group entities are exposed to currency risk on sales and purchases that are denominated in a currency other than the respective functional currencies of Group entities, primarily the Bahraini Dinar, Jordanian Dinar, Maldivian Rufiyaa (which are pegged to the US Dollar), Kuwaiti Dinar and British Pounds. The Group's exposures to currency risk is limited as the majority of its investments, due to and from international operators are denominated in US Dollar or denominated in currencies which are pegged to US Dollar. The net exposure to other foreign currencies is not significant.

The Group seeks to manage currency risk by continually monitoring exchange rates and by maintaining an adequate level of foreign currencies to cover its expected commitment to international telecommunication

BD'000

33. Financial instruments - Financial Risk Management (continued)

operators. These amounts are placed significantly in short-term fixed deposit accounts. In respect of other monetary assets and liabilities denominated in foreign currencies, the Group ensures that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short-term imbalances.

Interest Rate Benchmark Reform:

Interbank offered rates ("IBORs"), such as the London Interbank Offered Rate ("LIBOR"), plays a critical role in global financial markets, serving as reference rates for derivatives, loans and securities, and as parameters in the valuation of financial instruments. Uncertainty surrounding the integrity of IBOR rates has in recent years, led regulators, central banks and market participants to work towards a transition to alternative risk-free benchmark reference rates ("RFRs") and market-led working groups in respective jurisdictions have recommended alternative risk-free reference rates, which are gradually being adopted. Progress in the transition to these new benchmarks has resulted in significant uncertainty in the future of IBOR benchmarks beyond 1 January 2022.

The majority of LIBOR and other Interbank Offer Rates ("IBORs") are expected to be discontinued after 31 December 2021 and replaced with certain Alternative Reference Rates ("ARRs"), with the exception of certain USD LIBOR rates where cessation may be delayed until 30 June 2023. The transition away from the IBORs covers most of the business units and support functions of the Group.

The Group's investment in its subsidiaries is not hedged as those currency positions are considered to be long-term in nature. In respect of other monetary assets and liabilities denominated in foreign currencies, considering the nature of its financial instruments, the Group currently is not engaged in hedging of foreign currency risk. Please refer to note 21 for details of Group's outstanding loan contracts linked to benchmark rate and related outstanding amounts.

(ii) Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. Under the Group's interest rate management policy, interest rates on monetary assets and liabilities denominated in Bahraini Dinars, Jordanian Dinars are maintained on a floating rate basis. The average interest rate yield from bank deposits and debt securities during 2021 was 2.33% (2020: 3.19%).

At the reporting date, the interest rate profile of the Group's interest-bearing financial instruments was:

	2021	2020
Fixed rate instruments		
Financial assets	7,056	7,522
Financial liabilities	-	-
Variable rate instruments		
Financial assets	110,462	132,069
Financial liabilities	226,873	223,629

Fair value sensitivity analysis for fixed rate instruments

The Group does not account for any fixed rate financial assets and liabilities at fair value through the profit or loss. Therefore, a change in interest rates at the reporting date would not affect the profit or loss. Increase or decrease in equity resulting from variation in interest rates will be insignificant.

Cash flow sensitivity analysis for variable rate instrument

A change of 100 basis points in interest rates at the reporting date would have increased/ (decreased) equity and profit or loss by BD 1,622 (2020: BD 1,687). This analysis assumes that all other variables, in particular foreign currency rates, remain constant.

33. Financial instruments - Financial Risk Management (continued)

(iii) Other price risk

The primary goal of the Group's investment strategy is to ensure risk free returns and invest surplus fund available with the Group in risk free securities. Market price risk arises from investments held by the Group. The Group Treasury Function monitors its investment portfolio based on market expectations and credit worthiness of the underlying investees. Material investments within the portfolio are managed on an individual basis and all buy and sell decisions are approved by the Group's Board of Directors.

e) Capital Management

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the Group. The Board seeks to maintain a balance between the higher returns and growth that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position. The Board of Directors monitors the returns on capital, which the Group defines as total equity and the level of dividends to shareholders. The Group's objectives for managing capital are:

- to safeguard the entity's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders; and
- to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt. There were no significant changes in the Group's approach to capital management during the year.

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing borrowings that define capital structure requirements. There have been no breaches in the financial covenants of any interest-bearing borrowings in the current period.

34. Commitments and Contingencies

a) Capital commitments

The Group has capital commitments at 31 December 2021 amounting to BD 25.9 million (2020: BD 53.7 million).

b) Guarantees

- (i) As at 31 December 2021, the Group's banks have issued guarantees, amounting to BD 8.9 million (2020: BD 12.5 million) and letters of credit amounting to BD 8.7 million (2020: 5.3 million).
- (ii) The Company has furnished a comfort letter for BD 1.9 million (2020: BD 1.9 million) to Telecommunications Regulatory Commission, Jordan for providing a financial guarantee for the subsidiary companies operating in Jordan.

c) Staff housing loans

The Company offers loan assistance to its Bahraini employees for the acquisition of residential properties. The loans are funded through a local commercial bank and secured by a guarantee issued by the Company. The policy of providing staff housing loan guarantees was discontinued in 2007. The Company bears 75% (2020: 75 %) of the loan interest. At 31 December 2021, the Company has an outstanding guarantee of BD 0.3 million (2020: BD 0.3 million) towards housing loans to staff.

34. Commitments and Contingencies (continued)

d) Other contingencies

In the normal course of business, legal cases are filed by staff and counterparties against the Group and also by the Group against their suppliers/ vendors. The Group's legal department engages with in-house legal counsel and external legal counsel depending on the nature of the cases. A periodic assessment is carried out to determine the likely outcome of these legal cases and is reported to the senior management and the Board of Directors. In addition to this, due to the complexity of operations, the Group also received notification for penalty, deemed breach of relevant telecommunication regulations and other relevant legislations in the given jurisdiction where the Group operates.

As of the year end, the Group is defending these legal cases including penalties. Based on the advice of the Group's legal counsel including external legal counsel, as applicable, sufficient appropriate provisions have been recorded. No further detailed disclosures regarding contingent liabilities arising from any such claims are being made by the Group as the Directors believe that such disclosures may be prejudicial to the Group's legal position.

35. Non-Controlling Interest (NCI)

The table below shows details of non-wholly owned subsidiaries of the Group that have material non-controlling interests before any intra-group eliminations:

Entity NCI Share	2021	2020
	Dhiraagu 48%	Dhiraagu 48%
Non-current assets (excluding goodwill)	75,652	77,336
Current assets	59,172	42,410
Non-current liabilities	(14,580)	(11,920)
Current liabilities	(38,882)	(30,665)
Net assets	81,362	77,161
Carrying amount of NCI	39,054	37,037
Revenue	61,787	60,711
Profit & total comprehensive income	17,636	14,815
Profit allocated to NCI	8,465	7,111

Cash used in investing activities	(8,974)	(5,861)
Cash used in financing activities, before dividends to NCI	1,117	(4,305)
Cash used in financing activities - cash dividends to NCI	(7,023)	(6,664)
Net increase in cash and cash equivalents	19,101	11,975

36. Transactions with Related Parties

- (i) The Company qualifies as a government related entity under the definitions provided in the IAS 24. The Company provides telecommunication services to various Government and semi government organisation and companies in the Kingdom of Bahrain. The Company also avails various services from Government and semi government organisation and companies in the Kingdom of Bahrain. Such transactions are in the normal course of business and are not considered to be individually significant in terms of size.
- (ii) *Transactions with key management personnel:* Key management personnel of the Group comprise of the Board of Directors and key members of management having authority and responsibility for planning, directing, and controlling the activities of the Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
For the year ended 31 December 2021

BD'000

36. *Transactions with Related Parties (continued)*

The key management personnel compensation is as follows:

	2021	2020
Short-term employee benefits	1,424	1,568
Post-employment benefits	8	18
Total key management personnel compensation	1,432	1,586

	2021	2020
Post-employment benefits outstanding	147	167
Directors remuneration (including sitting fees)	573	542

Transactions with related parties where independent directors have an interest have been disclosed in Corporate governance report.

(iii) Directors' interests in the shares of the Company at the end of the year were as follows:

	2021	2020
Total number of shares held by Directors	5,240	3,710
As a percentage of the total number of shares issued	0.00%	0.00%

(iv) Executive management interests in the shares of the Company at the end of the year were as follows:

	2021	2020
Total number of shares held by executive management	84,387	-
As a percentage of the total number of shares issued	0.01%	-

37. Comparatives

The comparative figures have been regrouped, where necessary, in order to conform to the current year's presentation. Such regrouping did not affect the previously reported profit, comprehensive income for the year or total equity.

38. Significant Event - COVID-19

During 2020, an outbreak of the novel Coronavirus (COVID-19) rapidly evolved across the world. As a result, governments, and authorities, including the Government of the Kingdom of Bahrain, have implemented several measures to contain the spread of the virus such as suspension of flights from/to various countries, other travel restrictions and quarantine and have also announced various support measures to counter adverse economic implications. These measures and policies have caused significant disruption in the operation of many companies around the globe. COVID-19 has also brought about significant uncertainties in the global economic environment. The Group operates in a sector which has not been heavily affected by the virus.

The Board of Directors has considered the potential impacts of the current economic downturn and uncertainty involved in the determination of the reported amounts of the Group's financial and non-financial assets and liabilities in these financial statements, and they are considered to represent management's best assessment based on available and observable information. Based on this assessment, no material impact on the Group's financial statements has been noted to date.

SUPPLEMENTARY DISCLOSURES RELATED TO THE IMPACT OF COVID-19 *(not audited)*

On 11 March 2020, the Coronavirus (COVID-19) outbreak was declared a pandemic by the World Health Organization (WHO) and has rapidly evolved globally. This has resulted in a global economic slowdown with uncertainties in the economic environment. This includes disruption to capital markets, deteriorating credit markets and liquidity concerns. Authorities have taken various measures to contain the spread including implementation of travel restrictions and quarantine measures. The Group is actively monitoring the COVID-19 situation, and in response to this outbreak, has activated its business continuity plan and various other risk management practices to manage the potential business disruption on its operations and financial performance. Based on above, the management is of the view that the Company will continue as a going concern entity for the next 12 months from the date of these condensed interim financial statements.

The pandemic has had limited adverse material financial impact to the Group in comparison to prior year. However, key impact was noted for roaming revenues, which declined by BD 10.2M during the year 2021 compared to 2019 (pre-covid levels).

The above supplementary information is provided to comply with the CBB circular number OG/259/2020 (Reporting of Financial Impact of COVID-19), dated 14 July 2020. This information should not be considered as an indication of the results of the entire year or relied upon for any other purposes. Since the situation of COVID-19 is uncertain and is still evolving, the above impact is as of the date of preparation of this information. Circumstances may change which may result in this information to be out-of-date. In addition, this information does not represent a full comprehensive assessment of COVID-19 impact on the Group. This information has not been subject to a formal review by external auditors.
